

Saturday 7 December 2019		
08:00 - 09:00	Registration	
09:00 - 10:00	Fetal ultrasound meets genetics - cases	Tessa Homfray (UK), Elena Greco (UK), Oliver Kagan (Germany)
10:00 - 10:20	Medical law and ethics	Despoina Nikolaidi (UK)
10:20 - 10:40	Changing role of the doctor	Neil Sebire (UK)
10:40 - 11:00	Changing phenotype of the obstetric patient	Yves Ville (France)
11:00 - 11:30	Coffee Break	
11.30 - 11.45	Minimally invasive postmortem examination	Neil Sebire (UK)
11:45 - 12:40	Cell free DNA testing of maternal blood	
	Performance of screening for major trisomies	Mar Gil (Spain)
	Microdeletions	Oliver Kagan (Germany)
	Targeted vs genomewide	Jacques Jani (Belgium),Liona Poon (China), Katia Bilardo (Netherlands), Antoni Borrell (Spain)
	Single gene disorders	Antoni Borrell (Spain)
	Preimplantation genetic testing for aneuploidies	Francesca Grati (Italy)
12:40 - 13:00	Genome editing	Helen O'Neill (UK)
13:00 - 14:00	Lunch Break	
14:00 - 15:00	Preeclampsia screening and diagnosis	
	First trimester screening	Liona Poon (China)
	Clinical implementation – screening and prevention	Basky Thilaganathan (UK)
	Selective vs universal aspirin	David Wright (UK)
	Second trimester screening	Magdalena Litwinska (Poland)
	Third trimester screening - urinary Congo-red	Moritz Doberst (UK)
	Assessment and management of high-risk women	Stefan Verlorhen (Germany)
15:00 - 16:00	Clinical relevance of maternal hemodynamics	
15:00 - 15:15	Prepregnancy hemodynamics in PE and FGR	Christoph Lees (UK)
15:15 - 15:30	Hemodynamics in the management of PE	Nikos Kametas (UK)
15:30 - 15:45	Hemodynamics in PE and FGR	Basky Thilaganathan (UK)
15:45 - 16:00	Postpregnancy hemodynamics in PE	Chahinda Ghossein-Doha (Netherlands)
16:00 - 16:30	Coffee Break	
16:30 - 18:00	Fetal growth and stillbirth	
16:30 - 16:50	Early and late SGA management	Francesc Figueras (Spain)
16:50 - 17:05	The rationale for TRUFFLE 2	Christoph Lees (UK)
17:05 - 17:20	Selecting appropriate Doppler reference ranges	Daniel Oros (Spain)
17:20 - 17:35	Fetal size and adverse perinatal outcome	Matina Iliodromiti (UK)
17:35 - 17:50	New 3D model for prediction of SGA	Ioannis Papastefanou (Greece)
17.50 - 18.00	Contribution of vasa previa to stillbirth	Ranjit Akolekar (UK)

## Advances in Fetal Medicine Course

Sunday 8 December 2019		
09:00 - 11:00	Fetal echocardiography - cases	John Simpson (UK), Vita Zidere (UK), Marietta Charakida (UK), Trisha Vigneswaran (UK)
11:00 - 11:30	Coffee Break	
11:30 - 11:50	Ultrasound in the era of cf-DNA and PGT	Ritsuko Pooh (Japan)
11:50 - 12:30	Fetal neurosonography	Guillermo Azumendi (Spain), Laurent Guibaud (France)
12:30 - 13:00	First-trimester 3D imaging	Harsha Shah (UK)
13:00 - 14:00	Lunch Break	
14:00 - 14:15	First-trimester diagnosis of defects	Argyro Syngelaki (UK)
14:15 - 14:35	Uses and abuses of meta-analyses	Alexandros Sotiriadis (Greece)
14:35 - 14:55	Ultrasound in the labor ward	Torbjørn Eggebø (Norway)
14:55 - 16:00	<b>Studies in twins</b>	
	Screening for trisomies in vanishing twins	Petya Chaveeva (Bulgaria)
	Adverse outcome according to chorionicity	Ewelina Litwinska (Poland)
	Effect of single death	Brindusa Cimpoa (UK)
	Prediction and prevention of preeclampsia	Zsofia Benko (Hungary)
	EVENTS - does progesterone prevent preterm birth?	Anoop Rehal (UK)
16:00 - 16:30	Cases in maternal fetal medicine	Surabhi Nanda (UK)
