09:10 - 09:30	Congenital diaphragmatic hernia (Jan Deprest - Belgium)
09:30 - 09:50	Artificial placenta (Alan Flake - USA)
10:50 - 10:10	Gene and stem cell therapy (Panicos Shangaris - UK)
10:10 - 10:30	Complex gastroschisis (Luc Joyeux - USA)
10:30 - 11:00	Future impact of informatics and data science (Neil Sebire - UK)
11:00 - 11:30	Coffee Break
11:30 - 12:30	Maternal medicine (Discussant: Catherine Williamson - UK)
11:30 - 11:50	Bile acids and adverse pregnancy outcomes (Catherine Williamson - UK)
11:50 - 12:10	Update on VTE from UK maternal mortality enquiries (Catherine Nelson-Piercy - UK)
12:10 - 12:30	Adverse pregnancy outcomes in Type 2 Diabetes Mellitus (Helen Murphy - UK)
12:30 - 13:00	Fetal infection (Yves Ville - France)
13:00 - 14:00	Lunch Break
14:00 - 14:20	Artificial intelligence and ultrasound (Aris Papageorgiou - UK)
14:20 - 15:20	Twin pregnancies
14:20 - 14:45	Discussion of cases (Liesbeth Lewi - Belgium)
14:45 - 15:05	Long term outcome (Enrico Lopriore – Netherlands)
15:05 - 15:20	Fetal growth in twins (David Wright - UK)
15:20 - 16:00	Maternal and fetal cardiovascular function (Discussant: Nikos Kametas – UK)
15:20 - 15:40	Fetal cardiac function in FGR (Fatima Crispi - Spain)
15:40 - 16:00	Maternal cardiovascular function in pregnancy complications (Marietta Charakida - UK)
16:00 - 16:30	Coffee Break
16:30 - 16:45	Postpartum cardiac function in women with PE (Basky Thilaganathan - UK)
16:45 - 18:00	Prediction and prevention of preeclampsia
16:45 - 17:00	Implementation of first trimester screening for PE (Glenn Palomaki - USA)
17:00 - 17:15	Effectiveness of ASPRE screening (Basky Thilaganathan - UK)
17:15 - 17:30	Update on the sFLT-1 to PIGF ratio (Stefan Verlohren - Germany)
17:30 - 17:45	Update on prediction of PE (Kypros Nicolaidis - UK)
17:45 - 18:00	Prevention of PE by calcium supplementation (Peter von Dadelszen - UK)
18:00 - 20:30	Drinks and snacks

Sunday 5 December 2021

09:00 - 11:00	Fetal ultrasound meets genetics (Discussant: Tessa Homfray – UK)
09:00 – 09:20	Fetal phenotype to select cases for exome sequencing (Mark Kilby -UK)
09:20 - 11:00	Presentation of cases (Oliver Kagan - Germany, Rabih Chaoui - Germany)
11:00 - 11:30	Coffee Break
11:30 - 12:40	Neurosonography
11:30 – 12:10	Fetal neurosonogenetics (Karina Haratz – Israel, Ritsuko Pooh - Japan)
12:10 – 12:30	Midbrain anomalies (Karina Haratz - Israel)
12:40 - 13:00	Shaking the accreta coconut tree Eric Jauniaux (UK)
13:00 - 14:00	Lunch Break
14:00 – 14:50	Fetal growth restriction and stillbirth (Discussant: Ranjit Akolekar - UK)
14:00 - 14:20	Management of early and late FGR (Gerard Visser - Netherlands)
14:20 - 14:35	Prediction of small for gestational age (Ioannis Papastefanou - Greece)
14:35 - 14:50	Prediction of placental dysfunction related stillbirth (Kypros Nicolaides - UK)
14:50 – 16:00	Cell free DNA testing
14:50 - 15:05	Invasive and non-invasive testing in twins (Mar Gil - Spain)
15:05 - 15:20	Confirmation rate of cfDNA test high-risk results (Francesca Grati - Italy)
15:20 - 15:35	Investigation of false positive results (Ritsuko Pooh - Japan)
15:35 - 15:50	Universal cfDNA testing: effect on diagnosis of fetal disorders (Katia Bilardo - Netherlands)
15:50 - 16:05	cfDNA testing for monogenic disorders (Peter Benn - USA)
