

Saturday 2 December 2023	
08:00 - 09:00	Registration
09:00 - 09:10	Welcome (Kypros Nicolaides)
09:10 - 13:05	Genomics in pregnancy
09:10 - 09:20	Introduction (Antonio de Marvao - UK)
09:20 - 09:35	Overview of genetic testing (Tessa Homfray - UK)
09:35 - 10:35	Cell free DNA testing of maternal blood (Aris Papageorghiou, Pranav Pandya, Jehan Karim, Fionnuala Mone, Surabhi Nanda - UK)
10:35 - 11:00	Fetal genetic testing: from head to toe (Tessa Homfray - UK)
11:00 - 11:30	Coffee Break
11:30 - 11:50	AI assisted non-invasive fetal whole genome sequencing (Noam Shomron - Israel)
11:50 - 12:05	Common genetic variants and polygenic risk scores (Antonio de Marvao - UK)
	Inherited cardiac conditions
12:05 - 12:20	Fetal, neonatal and maternal inherited arrhythmia (Jan Till - UK)
12:20 - 12:35	Fetal and neonatal aortopathies and cardiomyopathies (Julene Carvalho - UK)
12:35 - 12:50	Genetics of fetal cardiomyopathies and congenital heart disease (Tessa Homfray - UK)
12:50 - 13:05	Maternal inherited cardiac conditions: antenatal care and delivery (Antonio de Marvao - UK)
13:05 - 14:10	Lunch Break
14:10 - 14:40	Fetal cardiac defects - presentation of cases (Julene Carvalho - UK)
14:40 - 16:00	Preterm birth
14:40 - 15:00	The role of the microbiome (Phillip Bennett - UK)
15:00 - 15:15	Universal measurement of cervical length at 20 weeks (Caroline Fox - UK)
15:15 - 15:30	Cervical pessary for short cervix (Eva Pajkrt - Netherlands)
15:30 - 16:00	Discussion
16:00 - 16:20	Congenital infection update (Yves Ville - France)
16:20 - 16:50	Coffee Break
16:50 - 18:00	Fetal growth restriction
16:50 - 17:05	Gene therapy (Anna David - UK)
17:05 - 17:20	Prediction (Ioannis Papastefanou - Greece)
17:20 - 18:00	Discussion on management (Christoph Lees, Raffaele Napolitano - UK)

Sunday 3 December 2023	
09:00 - 10:30	Preeclampsia
09:00 - 10:00	Prediction and prevention (Kypros Nicolaides, David Wright – UK, Liona Poon - Hong Kong)
10:00 - 10:10	Demonstration of new FMF software (Petya Chaveeva - Bulgaria)
10:10 - 10:30	Postnatal management (Basky Thilaganathan - UK)
10:30 - 13:00	Neurosonography
10:30 - 11:00	Normal and abnormal cortical development (Ritsuko Pooh - Japan)
11:00 - 11:30	Coffee Break
11:30 - 12:00	Added value of sagittal views in fetal brain anomalies (Guillermo Azumendi - Spain)
12:00 - 12:20	The role of MRI in assessment of the fetal brain (Elisenda Eixarch - Spain)
12:20 - 13:00	Accurate parental counselling at the fetal neurology clinic (Tally Lerman-Sagie - Israel)
13:00 - 14:00	Lunch Break
14:00 - 14:20	Fetal CT in the prenatal evaluation of skeletal dysplasias (Muriel Holder - UK)
14:20 - 14:40	Fetal sex abnormalities (Marisa Borenstein - Spain)
14:40 - 15:40	Fetal therapy
14:40 - 14:55	Overview (Kypros Nicolaides - UK)
14:55 - 15:10	Lung lesions (Rogelio Cruz-Martinez - Mexico)
15:10 - 15:40	Obstructive uropathy (Nicola Persico - Italy, Christoph Berg - Germany)
15:40 - 17:00	Demonstration of intrauterine interventions (Mauricio Herrera - Colombia)
